TOOLS FOR THE NEW WORKER

Work is changing. Workers are more mobile and work is more collaborative. Individual workspaces are smaller—often shared—and must adapt quickly to different users and workstyles.

Proper lighting, efficient organisational worktools and adjustable computer support tools give employees the ability to choose how and where they work, contributing to overall employee wellbeing and a more supportive, productive workspace.

ملحقات المكاتب العصرية

تتطور ملحقات المكاتب بتطور بيئة العمل لتواكب التغير الحاصل لذلك بدأت ستيلكيس بإنتاج هذه المجموعة من الملحقات لتخدم المستخدم ولتساعد في المحافظة على مكان العمل إذ تعد إضافة جمالية وعملية.

LIGHTING

Task lighting is an essential part of today's healthy and productive work environments. Users appreciate control over personal lighting that allows them to position it where they need it and to adjust it to their various tasks. Steelcase lighting solutions include the industry-leading dash LED Task Light—engineered to reduce eyestrain—as well as innovative lighting options designed to support individual workers' needs and complement both new and existing environments.

C6346

DASH TASK LIGHT

Featuring clean lines, fluid movement and a timeless aesthetic, the dash and dash mini LED Task Lights provide optimal lighting in nearly every environment. Yielding a soft, consistent pool of light that “falls off” considerably less than that of other LED lamps, dash and dash mini are as much about improving how we work as they are about making a subtle statement with their design.

C8585

C6125

DASH MINI TASK LIGHT

The smaller of the two dash LED task lights, dash mini has a compact design that maximises space and delivers optimal light. Also available with an integrated occupancy sensor for additional energy savings.

1+1 LED EXTENDED TASK LIGHT

Part of the 1+1 family of worktools, these task lights are the perfect companion for any work area—featuring a quiet aesthetic, 4-watt LED and minimal power consumption. The 1+1 LED Extended Task Light is designed for use on large worksurfaces, providing the user with an additional 20,32 centimeters of reach.

ORGANISATIONAL WORKTOOLS

Whether it's a mobile worker sharing a temporary workspace or an employee using the space on an ongoing basis—by easily adapting to each of their needs, organisational worktools create a more efficient, comfortable and productive workspace.

Better tools create smarter storage. 43% of European office workers feel that they would benefit from increased storage space. But what if they just needed proper organisation tools? 1+1 Worktools offer a broad range of unique and versatile solutions for storing and organising. By helping users make more efficient use of existing storage units and space, organisational worktools can reduce the need for increases in capacity.

47%

of European workers waste up to 30 minutes a day searching for information.

WELCOME TOOLS

As organisations grow, it becomes more important to augment current workspaces, increasing efficiency and decreasing overhead costs. 1+1 Welcome Tools enhance real estate by meeting more employee needs and utilising vertical space in smaller work environments.

Ergonomic support is also crucial and wellbeing at work is a global challenge. Different work modes and workstyles require different ergonomic support. Worktools help create organisational logic and ergonomic well-being. People are more effective if their workspace adjusts to the many ways they work.

8 MINUTES PER DAY

All workers today are mobile to some degree. The average worker spends 8 minutes per transition to settle in and refocus.

LAUNCH PAD

provides quick connectivity and storage on the worksurface.

C9102

MOBILE CADDY

is a smart storage on castors offering a place to stow personal items.

C7547

FUNCTIONAL SCREEN

provides workers with organisation, boundaries and privacy.

D0402

LAPTOP SHELF

makes it simple to use a laptop as a second screen with an external keyboard and mouse. Rail and freestanding versions available.

COMPUTER SUPPORT TOOLS

Knowledge relies on technology, yet technology is constantly evolving—changing form and shape. Computer support tools are integrated into the workplace and allow for ergonomics, space saving and flexibility. From adjustable monitor arms to CPU supports, these tools are highly customisable, allowing individuals to maximise their workspace, reduce fatigue and eyestrain, and make the most of their technology.

2. FORWARD ARM
3. FSMA
4. MOBILE LAPTOP SUPPORT
5. PLURIO MULTIPLE DISPLAY SUPPORT
6. VOLLEY

CPU SUPPORT

7. VERTICAL PROCESSOR SLING
8. RIGID UNIVERSAL CPU

D0402

PLURIO MONITOR ARMS

offer numerous options in a scalable system that easily adapts to any application. Plurio also makes a valuable ergonomic contribution ensuring the user's eyes are leveled with the screen, creating comfortable and healthy working positions, helping technology adjust to the user rather than forcing the user to adjust to the technology.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path.

It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result.

In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
